United Fund 60-Minute Progress

Good progress is being made by former "60-minute club" in changing to "continuing giving" groups which contribute 60 minutes pay per month to the United Fund.

Robert McCormick, AFL-CIO community services director of the Tri-Cities United Fund, has reported that contributions by employees of the Marshall Division of Miles Laboratories were made on a 60-minute basis. The gifts and pledges by them totaled \$21,000.

The initial United Fund report meeting last week brought pledges totaling \$184,471 or 44.1% of the amount needed to help member agencies operate during 1972.

The second meeting is set for 5 p.m. this Wednesday, Oct. 20, at the YMCA and the third report session will be held at the same location starting at noon Wednesday, Oct. 27. The final meeting is planned for Nov. 10.

Dedication of the new SIU-SW religious center will begin with a talk at 7:30 tonight by the Rev. Wayne Saffert, University of Chicago. Activities will continue through Sunday, Oct. 24, when there will be a 4 p.m. service of dedication, followed by a dinner in the University Center ballroom.

The next Nameoki Town Board of Auditors meeting has been changed to 7 p.m. Thursday, Oct. 21, to allow town officials to attend their annual state convention.

Firearm owner identification applications and deer hunting shotgun and bow and arrow permit applications are available locally at Earl's Discount Store, 18th Street and Nidringhaus Avenue.

Army officials in Washington have indicated voting machines cannot be stored at the Granite City Army Installation, as had been discussed Oct. 13 by the Madison County Board of Supervisors. Receiving buildings would complete current work to seal off facilities prior to sale or transfer of portions of the base's property. It was explained.

Governor Ogilvie on Friday announced award of a contract for health and life insurance for the 100,000 state employees at no cost to them. The coverage exceeds \$1 billion and will be effective Jan. 1.

When sirens are heard here Wednesday night, there will be no cause for alarm. A full-scale St. Elizabeth Hospital disaster drill is set for 2 p.m. to 3 p.m. Wednesday as a test of preparedness in handling an emergency and to meet accreditation requirements of annual drills.

Normal hospital functions will continue, but a percentage of hospital personnel will be activated or alerted for the disaster test.

Gov. Ogilvie on Thursday said he plans a state election board composed of himself, the secretary of state, the attorney general, the state treasurer and the Illinois Democratic and Republican chairmen. He called for such a board to govern statewide voting procedure, and for poll watchers and challengers to have the right to photograph abuses of election rules.

The U. S. Postal Service reported Friday it will not seek to raise present rates next spring, as had been planned. The current temporary rates of eight cents for first-class letters and 11 cents for air mail will be retained, in line with the government's effort to halt inflation.

State legislation introduced late last week would make public the names of all persons who profit from Illinois horse racing tracks and associations. The

Propose More SIU-SW Degrees

Southern Illinois University-Southwestern will seek approval by the Illinois Board of Higher Education to grant a master's degree in anthropology and a bachelor of science degree in education with concentration in early childhood education. Trustees approved the proposed degrees at a meeting in Carbondale Friday and authorized the administration to seek BHE approval.

Neither program will involve expenditure of additional funds this year, the Board of Trustees was advised.

The proposed master's degree in anthropology would be offered by the faculty of anthropology in the Social Science Division. Some graduate work in anthropology is already available at SIU-SW. Anthropology, psychology and sociology courses are offered in an interdisciplinary program leading to a master's degree in behavioral science. Additional development of the graduate program in anthropology would also strengthen service courses for other graduate programs.

The Illinois master plan for higher education designates SIU-SW as an urban-oriented institution with special respon-

sibilities for degree programs dealing with urban affairs. The proposed anthropology degree is consistent with the master plan, trustees were informed. The proposed education degree would be administered by the elementary education faculty in the Education Division and would become effective immediately upon approval by the BHE.

Four-Year Program
At present SIU-SW offers an associate degree program in child care services which would phase into the four-year program. Eventually the associate degree will be phased out. The need for teachers trained in early childhood education

3 Local Families Hosting Foreign Students Find the Activity Warmly Rewarding

By VALERIE EVENDEN
Press-Record Staff Writer

An opportunity to provide foreign students with a favorable impression of the United States—and, at the same time, help lessen the loneliness of a young man or woman studying in a strange land—is offered through a unique project. It is appropriately labeled the International Host Family Program.

Three Granite City families presently are serving as host families to foreign students through participation in the International Hospitality Program at Southern Illinois University's Southwestern campus.

Local families taking part in the program are Mr. and Mrs. William Zimmer, 3238 Westchester Drive, Mr. and Mrs. Louis Guillo, 4033 Sara St., and Mr. and Mrs. John Schrader, 5116 Maryville Road.

Additional host families are now being recruited in this area, a spokesman for the program said today.

Persons interested in volunteering as an International Host Family may secure detailed information by contacting any of

the three local families involved in the program, or by calling Mrs. Helen King, at 1456-2863; Mrs. Reba Klenke, 1-656-5023; or Mrs. Juanita Peterson, 1-656-2452. All are Edwardsville area telephone numbers.

From Madras, India
Visiting the home of a Granite City family at the present time is R. Kishen Devraj from Madras, South India, who is assigned to Mr. and Mrs. Zimmer.

The John Schrader family has been chosen to host a young man from Saudi Arabia named Abdul Aziz Orymer and Mr. and Mrs. Louis Guillo are entertaining Enrique Castillo from Guatemala City.

An organizer of the hospitality program at SIU-SW said few people realize the number of young men and women from abroad who come here to study, including undergraduates, graduate students, teaching assistants and professors.

Crackdown on GC Sewer Fees

The first in a series of small claims suits have been filed by Granite City Treasurer Paul E. Rutledge in a move to eliminate delinquencies in payment of sewer rental fees.

Rutledge said delinquencies in sewer rental fees now total about \$30,000 and that a continuing effort will be made to bring all payments up to current billings.

The treasurer said that in

reviewing the finances of the city sewer program he found that a great majority of Granite City residents are prompt in payment of sewer rental fees, but that in some instances bills have become delinquent to the point that penalties have been added.

Filing of suits in small claims court to collect the back bills also will add court costs, Rutledge said, but if necessary this practice will be followed in an effort to wipe out the delinquency.

The treasurer said his office will accept sewer fee payments in advance from those persons who might wish to do so.

In announcing his plan to file suits to collect back sewer fees, Rutledge said:

"The sewer programs of the city of Granite City are for the benefit of all the citizens. They are all the result of actions by the federal government in some form or other and are designed to protect the health of the citizens. More programs are to be instituted in the future, such as the secondary treatment plant the city is required to place in operation by late 1972.

"In reviewing the finances of the various programs, I find that a great majority of the citizens of Granite City are paying their sewer bills when they come due. They are to be commended for doing this. I would like to advise all participants in these programs that arrangements can be made with the treasurer's office to pay these bills in advance if they so desire.

"However, there is a small minority of citizens who are delinquent in paying their sewer bills. As a result, my office has been required by law to add penalties to these outstanding bills. We also are required to place liens against the property where these bills are delinquent in order to insure that the city will receive the money that is due.

"Therefore, I am advising

War Jet Due to Arrive Here as Park Memorial

Airlifting of a F-84 Thunderflash jet fighter to Wilson Park was scheduled for early this afternoon.

Visibility was too limited at the proposed takeoff time this morning, resulting in the delay until afternoon.

The plane, obtained by Amvets Post 51 from the U.S. Air Force will be positioned in a permanent location in Wilson Park as a tribute to local men who are or have been members of the armed forces.

A huge "sky crane" helicopter brought by the Kansas Army National Guard was to be used to transport the former fighter - bomber to the park's landing area.

Operational until a few months ago, the F-84 was flown to Scott two weeks ago from Wright-Patterson Air Force Base in Ohio.

Technicians of the 375th Aero-Medical Wing at Scott demilitarized the aircraft, removing the turbojet engine, six 50-caliber machine guns and other components.

City May Set Limit On Open Burning

A limit on residential burning of leaves and limbs between 10 a.m. and 5 p.m. daily was suggested in a meeting Thursday night as the city considers enforcement of an open burning ban now effective under state air pollution regulations because of the city's lack of funds and facilities to expand its trash pickup service.

The meeting, held in the city hall, involved a general discussion of the state's ban on open burning of any kind by householders and the city's ability to meet the increased needs for trash collection if such a ban were to be enforced here. Mayor Donald Partney and other council members pointed out the city does not have funds at this time to extend needed for collection of leaves, limbs and household trash which most householders have burned in the past.

In addition to the mayor, those attending the meeting included members of the Granite City Air Pollution Control Board and Aldermen Thomas Boker, Sam Whitmer and R.E. Robertson. Only three persons were in the audience.

The state ban became effective a month ago and is designed to eliminate open burning by householders throughout the state.

Participants in the Thursday night conference indicated an ordinance will be prepared for adoption by the city council to limit burning of leaves and limbs to the 10 a.m. to 5 p.m. period.

Miss Mary Ann Bathon Is Married at St. Mary

Miss Mary Ann Bathon and Emanuel Fernandez exchanged wedding vows in a 2 p.m. ceremony Saturday at St. Mary's Roman Catholic Church in Madison.

Peach-colored gladioli and white mums formed the altar bouquets and white satin ribbons marked the family pews.

The Rev. Sylvester Mick, O.F.M., performed the ceremony in the presence of many friends and relatives of the young couple.

Their parents are Mr. and Mrs. Henry A. Bathon, 2031 Fifth St., Madison and Mr. and Mrs. Manuel Fernandez, 181 W. Gwen St., Ogden, Utah.

Miss Jeanine Unfried, vocalist, sang "Love Theme" from Romeo and Juliet; "One Hand, One Heart"; "On This Day"; and "We've Only Just Begun," accompanied by Mrs. Helen McGarrahan, organist.

The bride chose a pure white silk organza gown, formal length, fashioned with an Empire bodice of Alencon lace, scooped neckline and short sleeves. Pearls and iridescent sequins edged the lace of the bodice and the long skirt had a front panel of shirred tucking, banded on each side with matching lace.

A sweeping chapel train was embellished with lace motifs and a Camelot headpiece of pearls secured a triple-tiered veil of bridal illusion.

The bride carried a Colonial bouquet of white roses, white stephanotis and baby breath tied with long white satin streamers.

By JACKIE STEFANICH

Copley News Service

Dear Nana:

Thank you for remembering me on my 71st birthday. It was very thoughtful of you. And certainly enjoy reading your column with all your helpful hints. Please print in your column the date of my birthday. I'm sure others would like to know it.

God bless you.

A. E. H.

Dear A. E. H.:

As per your request, I'm a Scorpio and almost a baton Sagittarius. My birthday is Nov. 20.

And thank you for your interest.

Dear Nana:

I noticed you mentioned in your column of using the Ann Adams greeting cards. They are lovely, aren't they? I've used them for years. I'm wondering if you also have the address for the United Nations Children Cards for Christmas? We received one last Christmas and it was lovely. But, I don't know where to send for them.

Thank you for the information and we do enjoy reading your column in our paper.

R. M. K.

Dear R. M. K.:

I'm sorry but I'm not familiar with the United Nations Children Cards for Christmas. However, maybe one of my readers will be good enough to furnish us with this information.

Dear Nana:

I'm 65 years old and I have a weight problem. I weigh 156 pounds and I'm 5 feet 5 inches tall. When I was young I never weighed over 130 pounds, yet I was a hardy eater and never had to worry about gaining weight.

Now I barely eat a square meal, usually nibble but I do drink a lot of water. I can't wear my clothes and I feel heavy on my feet as well as miserable.

I'd like to know if those candy aids you see advertised will help me control my weight.

Trojans Win 34-26 on Chandler Scoring Spree

Coach Al Vonder Haar still was not fully pleased with the Madison High School gridiron Trojans' running game Saturday afternoon at Eureka, Mo., but was happy to see his team bring home its first win of the season, 34-26.

With Eureka concentrating on stopping the MHS ground offense, it sputtered along through a scoreless first quarter. Missed assignments also played havoc with several running plays.

Most of the second period had elapsed when Trojan Halfback Ed Chandler returned a punt 81 yards for a touchdown. When Chandler ran over for the points after touchdown, it was 8-0.

Only two minutes remained before halftime but Madison managed to double its lead to 16-0. Eureka had failed to advance after receiving the kickoff, and Madison gained possession with Chandler aerial on a flag pattern provided six points and Chandler again ran for a two-pointer.

In the third quarter, Madison added its final 18 points and Eureka posted its initial six points.

Trojan TDs were by Randy Gravelle, who recovered a fumble and ran it 45 yards into the end zone; and Chandler on 60-yard and 80-yard pass plays from Newsome.

Unbeaten Kickers Win First Tourney

"Fantastic" is the only word to describe this year's Warrior High school soccer squad which remains undefeated through its first season.

Two wins at the Central Illinois Tournament at Jacksonville Saturday earned the Warriors their first tournament championship and extended their undefeated streak to six games.

The Granite City Kickers had little trouble in the tournament, downing St. Thomas in the first round 4-1 and defeating Jacksonville for the championship, 6-2. Jacksonville boasted of only one loss in three years, a record which the Warriors easily halted.

In the final game, the Warriors took command five minutes into the first half as Jim Conway beat the goalie to the ball and tapped it to Randy Worthen.

The passing proved effective after Chandler moved to a flanker position. The Eureka defense adjusted slightly to the MHS passing and running formations but not sufficiently to stop them.

James Turner, sophomore MHS linebacker, starred by speeding into the enemy backfield several times to half sweeps for yardage losses.

Sophomores took over for the Trojans in the fourth quarter but when Eureka scored two more TDs and moved into position for its final touchdown, the MHS varsity returned to halt the rapidly building home team momentum.

who earned the first score. Moments later, Jacksonville against Goale Gleen Williams and the score was deadlocked for 15 minutes.

Jerry Duncan passed to Bill Bronnbauer for the second Granite City point at 20 minutes.

Eight minutes into the second half, Perry Dillard passed to Worthen from the right side for the score, Worthen's second of the game. It was the first time, Worthen, a junior, has started a game.

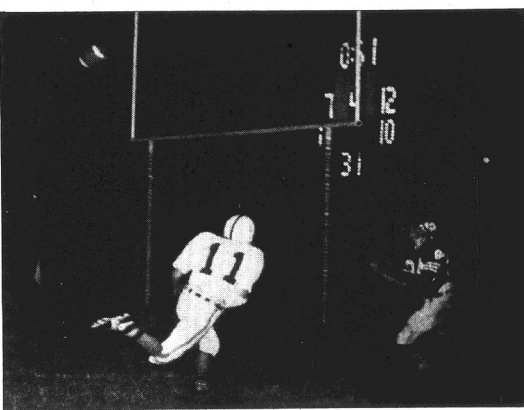

Jacksonville scored again 10 minutes into the period, narrowing the GCHS lead to 3-2. Duncan intercepted a Jacksonville pass and score from 25 yards out at 20 minutes and two minutes later Dennis Jones passed to Bronnbauer for the Warrior's fifth point. Four minutes before the final whistle, Worthen passed to Jim Conway who booted an unstoppable goal.

In the first game, Carl Duke, Duncan and Worthen earned assisted goals while Jim Forrest-er scored on a penalty kick. Bronnbauer was credited with two assists and John Conway with one.

Today Hancock High School of Lemay, Mo., will meet the Warriors on the Wilson Park field at 4 p.m.

Cross-Country Meets

The GCHS harriers will travel Wednesday to O'Fallon for a 4 p.m. triangular meet against Assumption and O'Fallon. Alton will host the Southwestern Conference meet on Friday.

WINNING TOUCHDOWN is about to be scored by Kevin Dyer (84) of GCHS as he awaits the pass at left, thrown by Quarterback Joe Wallace. Arriving too late is Mark Carwell (11) of Belleville East in the Warrior Homecoming game Friday night. The TD changed a 12-7 deficit to a 13-12 victory.

Warrior Pass in Final Seconds Wins Thriller

By STEVE BURDGE

GCHS Football Writer

The Granite City High School football Warriors impressed their Homecoming crowd Friday night with a thrilling 13-12 victory over Belleville East's Lancers. GCHS scored with 56 seconds remaining in the game to gain the win.

Belleville East scored a six-point in each of the first two quarters, with the Warriors pushing across seven points in the third period to set the stage for the final-quarter heroics.

With time running out, the Warriors put together a long drive from their own ten-yard line to the enemy 20, only to run out of steam.

The Granite City defense did not give up, however, and held the Lancers, forcing them to punt. The kick was long and was downed on the GCHS 25.

The Warriors faced two enemies at this point—the clock and the opposing team—but they conquered both. It took Granite City only two plays to move the ball 75 yards for the deciding touchdown.

Quarterback Joe Wallace unleashed a 54-yard aerial bomb to Kevin Dyer, putting Granite City in business on the 21-yard-line.

Wallace then found Dyer wide open in the end zone and hit him perfectly with a pass for six points and a 13-12 Warrior advantage. A run for the extra point failed.

After the next kickoff, the Lancers tried to develop offensive momentum but, before they could, Tom Hudson picked off his second pass and the interception iced up the Warriors' victory.

The Granite City offense had made its presence felt throughout the game. The Warriors sustained a substantial drive every time they had the ball, but had trouble when they got into the Lancer 30-yard-line.

Coach Wayne Williams had Wallace calling the plays in the huddle.

Stan Stajduhar was his old self carrying the ball.

pushing for 143 yards in 31 carries for an average of 4.6 yards a try.

The GCHS offensive line did an outstanding job of opening up holes in the one-yard-line, and Wallace kicked the extra point to make it 12-7.

The GCHS defense toughened and three pass interceptions enhanced the Warriors' ability to frustrate the Lancer attack. The first interception was by Dave Carmody and it gave Granite City possession of its own 20. The Warriors moved all the way to the Belleville East 20 but ran out of downs.

Then Hudson intercepted a long pass, paying the way for the next-to-last Warrior drive. It did not reach paydirt but the next one did, thanks to the effective Wallace-to-Dyer combination.

The Warriors next will play Louis cmfwp5 St. Elizabeth's Tigers 1:30 p.m. Saturday.

When the second half began with the score still 12-0, Warrior Dale Williams, a sophomore, took the kickoff

and ran 70 yards from his own six to the Lancer 24.

Granite City moved in for the touchdown, Stajduhar carrying it across from the one-yard-line, and Wallace kicked the extra point to make it 12-7.

Soccer Cougars in Winning Form, 3-0

The SIU-SW soccer Cougars, fresh from a convincing 3-0 victory Saturday over a strong University of Missouri-St. Louis team on the Rivermen field, face two real tough tests this week. Tomorrow, SIU-SW will host the Eastern Illinois University Panthers, starting at 4 p.m., while Saturday afternoon the Cougars will travel to Quincy, Ill., to take on nationally-ranked Quincy College.

Saturday's victory over the Rivermen of Coach Don Dallas ran Coach Bob Guelker's Cougars' season record to 4-0-1. On comparative scores, at least the win would seem to put SIU-SW in the driver's seat in its upcoming game Nov. 6 with national NCAA champion St. Louis University.

In early season games this year, the Bills had been from behind to nip the Rivermen 2-1, while Quincy beat UMSL 2-0.

For tomorrow's game with Eastern Illinois, the Cougars will have to be in top form as the Panthers of Coach Fritz Teller held St. Louis 1-0 in a 2-0 score and Quincy beat the Charleston school, 1-0.

In Saturday's victory over UMSL, the Cougars lost little time showing they wanted the victory as John "Dino" Dejnowski took a pass from John Carena at

5:50 into the first period and blasted the ball into the cords past Goalie Tim O'Toole, who never had a chance.

At 16:53 of the second quarter on a pass from Tommie Howe, John Carena put in the first of his two goals for the game. Bill John's second goal came on a pass from Tom Twardy at 2:32 in the third period and Coach Guelker then gave the majority of his veterans a rest.

Carena now has eight goals and has assisted on four others for the season. In four seasons, he has scored 86 points for SIU-SW.

It was a hard-fought game, with SIU-SW charged with 18 fouls and the Rivermen 14. In shots-on-goal, SIU-SW edged UMSL, 15-13, but in the important fourth period, the Cougars held the Rivermen to just one separation shot while racking up five of their own.

In corner kicks, UMSL had a 5-1 edge, but the Cougar defense of Rich "Granddaddy" Neitzert, Dennis Driscoll, Tom Galati, Kevin Howe and Vince Fassl, with Rick Benben in goal, was tough and is getting better with each game. It was Benben's third shutout, although Jim Stranz went into the game in the fourth period for the Cougars.

Grigsby Wins 4-School Jr. High Cross-Country

Grigsby Junior High School won the annual Granite City junior high school cross-country meet at GCHS Thursday with a 145 score.

Coolidge, defending champion, placed second with 208, Prather third with 230 and Central fourth with 239.

Coolidge Harrier Lee Roy finished third with 230 and Central fourth with 239.

Coolidge Harrier Lee Roy finished third with 230 and Central fourth with 239.

Central, 7th, 7:16; Rick Morien, Grigsby, 8th, 7:18; Scott Orr, Coolidge, 9th, 7:23; and Gary Fernandez, Prather, 10th, 7:24.

The meet was headed under the direction of Dick Harmon, cross-country coach of Granite City High School, with assistance from the GCHS harriers.

Cross-country coaches for the junior highs are Larry Williams, who was head under the direction of Dick Harmon, at Coolidge, Mike Harmon at Central and Merlin Robinson at Grigsby.

A traveling trophy was awarded. In order to keep the trophy, a school must win three times; all the junior highs have won it once except Central, which has no ninth grade class.

Harry C. Philipps, 68, Found Dead in Garage

Harry C. Philipps, 68, of 2101 Lynch Ave., was found dead in the garage at his home at 5:10 p.m. yesterday, two bullet wounds to the right side of his head. A pistol was found near him.

The body was found by the victim's wife, Mrs. Bertha Philipps. He was pronounced dead at the scene by Madison County Deputy Corner Ed Werner. An inquest will be held.

Mr. Philipps was born in Sae-nook Township and was a life-long resident of the Quad-Cities area. He was a retired carpenter.

He was a member of St. Peter's Brotherhood and of St. Peter's Evangelical United Church of Christ. His widow is the sole survivor.

Funeral arrangements may be found in today's obituary column.

Bernard Tretter, 88, Retired Barber, Dies

Bernard A. Tretter, 88, of 2925 Iowa St., a retired barber, died at 12:40 p.m. Sunday, at the Colonial Nursing Home, Marysville, Ill.

A native of Indiana, he lived in Granite City for 56 years. Mr. Tretter was a member of Sacred Heart Catholic Church and belonged to the Barber's Union Local 483.

Survivors include his widow, Mrs. Mabel Tretter; two daughters, Mrs. Jack (Georgia) Tretter of Independence, Ky., and Mrs. Ralph (Wilma) Long of Granite City; one son, Melvin Tretter of Granite City; a grandson, Aloysius Tretter of Columbus, Ohio; 13 grandchildren and three great-grandchildren.

Funeral services are given in the obituary column.

Stanton Driver, 31, Faces Hit-Run Charge

Stopped by Ponton Beach police at 9:22 p.m. Friday at Highway 111 and Ponton Road, Charles Frey, 31, of Stanton, Ill., was released to Granite City police who charged him with leaving the scene of an accident without giving notice.

Police said Frey's 1968 pickup truck allegedly struck and damaged the rear and side of a 1969 auto owned by John Popchak, 241 Criville Ave. The Popchak car was parked in the 2900 block of Madison Avenue about 9 p.m. Friday when hit by a northbound vehicle.

Frey's truck had damage to the front end, the police report stated. The Stanton man posted \$50 cash bail and was released pending a hearing.

Burglars Ransack House

Burglars ransacked the home of Paul Thompson, 2146 Woodlawn Ave., it was reported at 8:15 a.m. Friday. The owners are preparing a list of missing items for the police. Entry was gained by breaking the glass in the rear door.

Club Members Only

Reservations still are being accepted from members of the St. Louis Area Officers Open Mess for a "Spanish Night" program Thursday at the Granite City Army Installation. An item, published earlier, incorrectly indicated the event was open to the public.

3 Families

Almost all the recent arrivals and those expected to arrive during the remainder of the school year will be visiting the United States for the first time. The initial impression they receive of our country can have far-reaching implications to understanding, the program spokesman commented.

"Imagine yourself in their place—thousands of miles away from home in a strange land, with strange social customs, a foreign language, unknown foods and a different sense of time," one of the local hosts remarked.

"Try to experience the feeling of loneliness the young people have and you will understand the reasons behind the Host Family Program," she added.

"We must extend the hand of friendship to our visiting foreign students," an SIU-SW director said. "This is an opportunity to learn, to know and understand someone from another land, another culture—the chance to help him understand us."

Across the nation on most university campuses, volunteer organizations have been formed to provide a program of hospitality for foreign students.

Area families interested in making friends with foreign students and including them in family activities during their stay at SIU-SW are encouraged to participate in the Host Family Program here.

Commitment varies. Families can commit themselves as much or as little as desired, depending on available time and resources. It was explained that participation does not involve housing a student, the spokesman stressed.

The program starts when a host family is assigned to a student. The family arranges to meet at SIU-SW at the airport and provide him with meals and lodging for the first few days.

During this period, the student is involved in orientation and registration procedures at the university and also is busy looking for permanent housing.

Picnics, outings. From then on, the host family involves him in various activities—an occasional family dinner, picnic, excursion or a visit to the zoo, theatre, school or civic events.

In each case, the individual host family decides how much its members want to become involved in international hospitality. Any amount of service no matter how small, is greatly appreciated by the students, a program advisor said.

Students arrive four times a year, at the beginning of each quarter at the local campus.

On Oct. 29, the International Host Committee at SIU-SW will sponsor a Halloween party at Hope Lutheran Church on Washburn Avenue.

It was noted that most of the international students planning to attend have yet to learn the language never heard of the traditional American holiday.

Families who have adopted a foreign student in the past report the program is "a very rich and rewarding experience" and encourage others to join.

William Schooley, Village attorney, was authorized to prepare an ordinance requiring local companies to be licensed to purchase a city license at \$25.

Postal Branch Denied. Staicoff read a letter from the Postmaster General's office refusing the board's request for a branch post office in Ponton Beach. Dr. Dean Rochester, board member, requested Staicoff inquire again about the facility rather than accept refusal, Rochester said it should be made clear that mail delivery through the Granite City Post Office should remain and that all that was requested was a branch where outgoing letters and parcels could be mailed.

Staicoff was authorized to seek an accountant who would prepare the village's books on a once per month basis. The village's books, accounting firm, suggested that an updated system be utilized in keeping the books. Staicoff suggested that a qualified accountant be hired to initiate the new system.

R. W. Hardy, district manager of the Illinois Inspection and Rating Bureau, was given the floor to request the village be declared a Fair Village.

Regional Report -- Missouri Still Is Trying to Block Airport in Illinois

(Illinois Metro East Industrial Development Corporation)

Contract agreements, without production interruptions, have been achieved by three major industrial plants. New three-year agreements, generally following this summer's basic steel industry settlement, were approved by the United Steelworkers of America and Granite City Steel Co., American Steel Foundries and Laclede Steel Co.

Missouri Gov. Hearnes told the East-West Gateway Coordinating Council that he will ask the Missouri legislature to approve an airport authority for the St. Louis metropolitan area and will continue to campaign for a Missouri location for the proposed jetport.

The council turned down the suggestion of its Environmental Task Force that it hire a firm of consultants to conduct environmental impact studies on the proposed sites, but did agree to withhold formal action until impact statements for the Missouri sites have been completed.

Meanwhile, St. Louis County Supervisor Ross injected a new issue in the airport study. He said that any southbound extension of the Inter Belt to handle traffic to the proposed Illinois airport would decimate important neighborhoods in St. Louis County. The Gateway Council ordered its staff to study the impact of such highway construction.

Fairview Heights continues to expand its corporate limits. The City Council approved an ordinance to annex a two-square-mile area south of the city. Addition of the new area, which includes Pontiac, Chateau Terrace and Lakeland Hills subdivisions, would increase the city's population to 11,500 residents.

A seven-point plan intended to speed city growth through annexation was adopted by the Edwardsville City Council. The plan, presented by Alderman Raymond F. Albert, deals with the city's need to consider annexation, additional sewer facilities and the extension of water and sewer mains.

State highway officials met in Springfield with members of the Southern Illinois Black Contractors Association to hear details of a proposal for the state to withdraw a \$4 million highway construction job in East St. Louis from the Oct. 26 letting and award it to the black contractors on a cost-plus basis.

Since such an agreement would conflict with the state purchasing act, which requires

bids for contracts in excess of \$5,000, approval of the proposal must await the decision of state and federal officials.

A lease has been signed for new office space in a building at 1000 S. Main St. in the Southwest area. The move is planned for November and should be completed by Dec. 1.

Southern Illinois University's Southern campus has been allocated \$300,000 by the Illinois Bureau of the Budget to buy the former Shurtleff College in Aton, which it has been renting. Bureau officials stressed that

the recommendation for released funds has nothing to do with the \$1.2 million still being withheld for the Dental School at Alton. B. D. Hudgens, SIU-SW vice-president for business affairs, interpreted the release as a wise economic move, since the university already has spent about \$1 million on remodeling the Dental School.

In general area news, East St. Louis was assured by the East-West Gateway Coordinating Council board of directors of a voice in the task force to direct a railroad relocation study on the East St. Louis riverfront.

A federal court order has forestalled an ordinance limiting the length of freight trains from taking effect in Granite City; a fire of undetermined

origin destroyed the Kison Craft Boats factory in Troy; the state of Illinois has issued a charter for the proposed First Bank of Maryville.

The Catwood Station Corp. has agreed to pay for a sewage treatment plant for the 355-acre Cottonwood Station subdivision, annexed to Glen Carbon. Modern Foundry & Manufacturing Co. of Mascoutah has completed installation of \$80,000 worth of pollution equipment.

The U. S. Department of Labor has announced approval of Neighborhood Youth Corps in-school programs for 429 high school students in Madison and St. Clair counties; and, Earl B. Seary has replaced Robert Sullivan as the new tourism supervisor for Southwest Illinois Expeditionland.

Humanities Class Hears Jack Friedman

Jack Friedman, a Madison businessman, presented a lecture on "Art as an Avocation" at noon today to the Humanities Classes at Madison High School. He displayed several of his paintings that were presented to the public at a one-man show at the First National Bank of Madison earlier this year. During his talk, Mr. Friedman, also gave a demonstration of his technique as an artist.

Students in the four grade levels under the direction of Mrs. Marguerite Connors, attended the session. The Humanities program has been inaugurated for the accelerated English classes and are enriched with the subjects of art and music.

In conjunction with the Humanities program, Dunbar and Louis Baer schools the sixth grade students were taken on a special tour of the Louis Baer Museum last week. They were given a 15-minute lecture emphasizing American Art prior to the conducted tour.

LUCKY CONTESTANT Mrs. Paul K. Laurie, 2814 E. 23rd St., receives a \$600 check as winner in a contest at Viviano's Market. Store Owner Joe Viviano makes the presentation.

Accompanying the students were Mrs. Willie Watts, a teacher at Dunbar, and Mrs. Sara Veach, a teacher at the Louis Baer School.

Arch Train System On Daily Schedule

Bi-State Development Agency, in cooperation with the National Park Service, has announced that beginning today the Gateway Arch Passenger Transportation System will be open seven days a week from 9:30 a.m. to 4:30 p.m. This schedule will remain in effect through April 30, 1972.

Visitors are reminded that the ride to the top of the nation's tallest monument requires a minimum round trip time, including viewing, of approximately 20 minutes. Ticket sales will be suspended each evening in time to permit all passengers having tickets to be transported to the top of the Arch prior to closing.

A five-day Faith-Promise Rally will begin Wednesday at Pontoon Park, near the intersection of Christ and Pontoon Roads, with numerous activities planned, including a goal of \$8,000 in promises throughout the world. Last year the congregation pledged \$7,600.

The rally will begin at 7:30 p.m. Wednesday with Charles Troyer, a missionary in Italy, speaking at his work there. Thursday evening Ed Wilkerson, a missionary recruit will speak about mission work in South Africa.

A nursery and transportation will be provided Friday morning so that all ladies in the congregation may attend Ladies' Day at St. Louis Christian College. The program will begin at 9:30 a.m. with Mrs. Dallas Vernon, mother of the Vernon Brothers of T.V. Mission, as the speaker. A noon meal will be served for \$1.25 per person.

At 6 p.m. Friday, the youth will be treated to an Italian spaghetti dinner, prepared by Troyer, and Wilkinson will lead a song fest.

Peter Sultajohn will lead the rally at 7:30 p.m. Friday and will discuss his work in South East Asia.

At noon Saturday, the men of the congregation will be treated to a spaghetti supper and talk by Barton McElroy, a Philippines missionary. McElroy will conduct Saturday evening's Faith-Promise Rally.

Troyer will speak again at the regular Sunday morning service at 9:30 a.m. and McElroy will give a presentation at the regular 7 p.m. worship service.

Refreshments will be served following each rally. A committee of church members are preparing decorations and displays which will be used during the five-day event.

The banquet is being sponsored by the SIU-SW Council on International Relations and United Nations Affairs, a student organization. Speakers for the evening will be Dr. K. B. Rao, executive secretary of World University Service and Mrs. Hassan Jazmuddin, from East Pakistan, consultant for the United Nations Development Program.

The banquet is being held to publicize the situation in East Pakistan, to aid refugees to continue their education in India, and to acknowledge the 26th anniversary of the United Nations, according to Cathy Benton, a member of the sponsoring group.

Cost of the banquet will be \$1.25 if registered before Tuesday, and \$1.50 if registered after that date. Proceeds will go directly to the World University Service fund.

Interested persons should call the Community Involvement Project at SIU-SW 692-2689.

Weather Confuses Lilac Bush; Blooms Second Time

Balmy springlike weather enjoyed last week in the Quad-Cities apparently confused a lilac bush in the garden of Mrs. Joe Willis, 2425 Roney Drive, causing the bush to bloom for the second time this year.

Mrs. Willis said four blossoms appeared on the lilac shrub Thursday morning. The bush was planted by the Willis' two years ago and bloomed profusely in May and June, the local resident said.

County Urged to Control Building in Flood Areas

Mrs. Helen Hawkins of New Haven Manor in Nameoki Township, representing residents of the Dobrey Slough area who have been seeking correction of flooding conditions which occur virtually with every rain, has requested the county board of supervisors to provide effective enforceable ordinances to control the area.

The long-term program to correct flooding conditions in the area and placed partial blame on the maps and plat department for giving approval for new building before the county has issued building permits. Uncontrolled building in the area which has caused filling of natural drainage channels and increased stormwater runoff, is said by engineers to be one of the principal causes of flooding in the area.

Marshall Smith, assistant state's attorney, commented during the meeting that the maps and plat department has obtained certification from engineers on new buildings in the area, including the East Side Love and Sanitary District. He suggested one answer to the problem would be to rezone the area from residential property.

Seeds Control Ordinance. Louis Whitsell, Nameoki Township supervisor, told the board that "there are identical problems in other parts of Nameoki Township and in other townships. He asked for further consideration of a control ordinance.

During the meeting, Miss

Hotz announced that the filling time for the new county board is Nov. 1 unless there is a change.

The board authorized a call for bids for a police pursuit car to replace a demolished 1961 car, for audio visual equipment to be paid from federal grant funds, for printing of schedules of bail bonds and police code books and for blacktopping of grounds at the county dog pound and the playground at the juvenile detention home.

An application for federal law enforcement funds not to exceed \$7,500 to improve the probation and court services department, along with county matching funds of \$2,500, was approved.

The funds would provide guidance evaluation to the probation department, including detention home personnel, prior to an application for a grant to add personnel. It was recommended by circuit judges in a new state program.

A contract was granted to the Biebel Roofing Co. of Belleville to place a new roof on the courthouse annex on a low bid of \$6,618.

It was announced that an open house will be held at the County Tuberculosis Clinic from 1 to 5 p.m. on Nov. 7, and that the next meeting of the Madison County Historical Society will be held in Granite City.

The meeting was conducted by Arthur "Cooper" Moore, Venice Township supervisor.

February, March, April Balloting Will Begin a Busy Election Year

By RAY SERATI
Capitol News Service

Springfield—Next year Illinois will be kept busy going to the polls.

Just how many persons will be casting ballots for or against isn't quite completely determined. But in the process they will even cast ballots for pre-cinct committees, or similar party offices, along with delegates to the national nominating conventions.

In many areas of the state the voters also will be casting ballots on special issues. These will range from bond issues to the formation of special taxing districts such as sanitary districts, hospital districts or conservancy districts.

Unless the General Assembly, which is now in session, makes some changes in elections, Illinoisans for sure will be facing four major elections next year.

The first will be Feb. 8, the primary election date for county boards of supervisors. Then on March 21 there will be the regular primary for national, state

and county offices, other than the county board.

On April 4 there will be the election of the county board of supervisors. The general election for national, state and county offices will be held on Nov. 7.

There has been some discussion in the General Assembly about moving the Illinois primary election date back to the summer months.

Illinois has had one summer primary election in recent years. That summer primary election was back in 1968. It was held in June just before the national nominating conventions.

However, in the next session of the General Assembly, the lawmakers decided to change it back to March.

If the General Assembly doesn't take any action on the March primary it will mean that the filing of petitions for candidates for state offices will be just around the corner. The filing of these petitions will be in November.

To date, the Secretary of

State's office has not published the usual booklet of election dates and necessary dates for filing.

Apparently the main reason officials are awaiting to see if the General Assembly does take any action on election dates.

Venue Change Sought By Morris Campbell

Morris Campbell, an East St. Louis trustee of the East Side Levee and Sanitary District who is scheduled to go on Trial Oct. 26 on charges of theft of levee district funds, has filed a motion for a change of venue from Circuit Judge John A. Clayton of Marion. Judge Clayton had been scheduled to hear the case in Belleville as an "outside judge."

The motion, filed by Belleville attorney John J. Hoban, representing Campbell, alleges prejudicial grounds. Judge Clayton is expected to rule on the plea on the Oct. 26 hearing date.

Campbell is charged with the theft of \$840 which was paid by check to the district by the Village of Alorton for the rental of equipment. Campbell, who was president of the district at that time, is charged with failure to turn over the money to the district.

Hoban said he also plans to file a motion for continuance of the case until after the first of the year.

Apartment Burglarized

Burglars took a metal box containing insurance and other legal and personal papers from the home of Yvonne Bralle, Apartment 1, 2334 Washington Ave., the owner reported at 2:25 p.m. yesterday. Police said the front door of the apartment was pried open.

Ethics Legislation Is Imperative -- Ogilvie

By Gov. RICHARD B. OGILVIE

Last February I told our legislators we had reached "the point of danger" in Illinois because of the public's lack of confidence in the integrity of our public officials.

Recent events have confirmed that judgment many times over.

Thus the stage is set—at last—for long-overdue action in the General Assembly on ethics and campaign disclosure legislation.

I wasn't completely alone in February in asking for action in these two areas—but there was a noticeable lack of enthusiasm, to put it mildly.

The ethics bill I proposed narrowly survived Senate efforts to kill it, but it failed to go anywhere in the Illinois House.

The campaign disclosure bill was waylaid in a Senate committee, which never got around to holding full hearings on the proposal.

The heart of both these bills is the public's right to know, and the accompanying responsibility on public figures to make full disclosure of their financial interests, and of the extent of their campaign spending.

The question before us is not merely that a few persons appear to have made profitable deals which raise serious questions of propriety and ethics.

The larger question is the damaging effect these actions have had on the public's trust in all public officials.

Unless that trust is restored, everything that is done in government becomes suspect, rightly or wrongly.

Thus the hard work and diligent attention to the public interest of a truly dedicated legislator—and there are many—is tarred with distrust.

Such a result inevitably

debases and harms our entire democratic process, and all of us.

To have this happen at a time when our democratic process faces a number of severe challenges is doubly damaging.

Tough new laws for Illinois will not work as cure-alls.

But they will serve as a starting point in the fight to restore public confidence.

In the past, many well-intentioned and honest persons in public life have argued that it is unreasonable to require public figures to reveal so much more about their finances than is required of members of the general public.

Yet it is the inherent nature of public service that it does require personal sacrifices and a standard of conduct not required of persons in private life.

Local Moose Members Honored at Convention

Mrs. Dorothy Coy, retiring senior regent of the Women of the Moose, received the green cap during the Illinois Moose Association convention at Pere Marquette Hotel, Peoria, Ill.

The honor was accorded her for completing her year as senior regent.

During the convention her father, Otto Knipping, received the Fellowship Degree, the third degree of the Royal Order of the Moose.

Several members of Moose Lodge 272 and the women's organization attended the event. They included Virgil Singler, governor of Granite City Lodge; Mr. and Mrs. George Lipcomb, Mr. and Mrs. Walden Coy, Mr. and Mrs. John Sever, Mr. and Mrs. Otto Knipping, Mesdames Edna Bradley, Jean Teller, Margaret Houseman, Edith Rodgers and Gladys Markovich.

Like Caesar's wife, persons in government should be above suspicion.

While this will remain an ideal, it is one for which we must always strive.

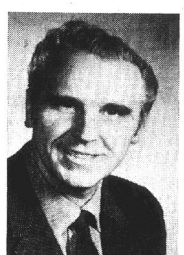

The legislation I submitted in February is not a challenge of the highest order to all our legislators.

I believe there is an imperative need to face this challenge now.

We can pass these bills—or stronger ones—if we have the will to do so.

And again, I urge that all of us put our duty to our state and its people first—before any other consideration.

When we do that, we can claim the respect and trust we would like for ourselves as honored servants of our democratic form of government.

May Tighten Law on Door-to-Door Sales

The Federal Trade Commission has issued a statement that consumers who make purchases of over \$50 from door-to-door salesmen may return the items or may cancel contracts for a full refund within three days after the sale.

The statement said that coercive methods used by some door-to-door salesmen are a distinct problem to housewives and most do not know that they may cancel any agreements within three days by notifying the seller of cancellation.

A stronger trade regulation is being considered which would reduce the amount of the sale covered from \$50 to \$10 and would require the seller to furnish the buyer with a written notification that the contract or agreement may be cancelled within three days.

The present regulation has been in effect as part of the Consumer Fraud Act since 1968. The statement added that housewives can stop high-pressure salesmen simply by signing the contract, if it is over \$50 and that no deposits or down

Masquers Season To Open With Children's Production "Aladdin"

Masquers, Inc., will kick off its 12th season this month with another children's production, "Aladdin and His Wonderful Lamp," which is scheduled for presentation Oct. 24 and 31 in Collinsville and again on Nov. 7 in Madison.

Three other productions are planned later this season.

First presentation of "Aladdin and His Wonderful Lamp" will be staged Oct. 24 at 1 p.m. and 3 p.m. at BAC-Miners in Collinsville, followed by 1 p.m. and 3 p.m. performances on Oct. 31. The production is directed by Al "Rock" Richee.

The show also will be presented at 1 p.m. and 3 p.m. Nov. 7 in Trinity Hall at Madison. Admission will be 50 cents per person.

Anyone who saw last year's production of "Rumpelstiltskin" will not want to miss "Aladdin and His Wonderful Lamp." Visual effects abound, with genies appearing in a puff of smoke, castles flying through the air and a magic cave filled with trees covered with jewels.

An evil magician wishes the lamp for his own greedy purpose, only to be thwarted by Aladdin as he rescues the Sultan's daughter from the magician's clutches and recovers the lamp. It is a delightful, funny, and enchanting hour that will thrill children of all ages.

"Aladdin and His Wonderful Lamp" is only the beginning of a season that will contain something for everyone, with shows such as the delightful comedy "Arsenic and Old Lace," Arthur Miller's drama, "Death of a Salesman," and a musical, which will be announced at a later date. Season tickets are available by writing P. O. Box 242, Collinsville.

Tryouts for "Arsenic and Old Lace" will be held Tuesday and Wednesday. Anyone interested in any phase of the production, acting or backstage, is invited to apply at the third floor of the Miners' Institute Building (above BAC-Miners theatre) in

downtown Collinsville after 7:30 p.m.

There are three women's John Melford of Collinsville, recipient of last season's "Mas-Lace," and four major men's roles, plus several supporting roles. The play is tentatively scheduled for presentation in mid-January, after the holiday season.

Directing the comedy will be John Melford of Collinsville, recipient of last season's "Mas-Lace," and four major men's roles, plus several supporting roles. The play is tentatively scheduled for presentation in mid-January, after the holiday season.

Price Bill Would Aid Homebound Children

Representative Melvin Price has announced the introduction of legislation providing tutorial and related services for homebound children.

The Price Bill would amend the Education of the Handicapped Act to provide assistance to about one million youngsters across the nation who fall into the category of "homebound handicapped," through the employment of college students, particularly veterans and other students who themselves are handicapped.

"Homebound children," said Rep. Price, "though able to benefit from pre-school, elementary or secondary education, are prevented from attending

school for various lengths of time by their handicaps, by lack of facilities, or because they experience special difficulties when in school."

The 24th District Democrat enumerated the benefits that should result from the legislation's enactment. "First, the funds cannot be used to establish permanent, segregated systems of education for the handicapped. The academic and emotional handicaps of these children can be overcome by the increased instruction time available to them, and hopefully they will be able to enter or return to school with a minimum of disadvantage.

"Second, by using dedicated

and qualified college students under the supervision of qualified teachers, more homebound children can be reached with the available funds.

"Thirdly, the bill will provide financial assistance and valuable educational experience to the qualified student instructors. Preference will be given to veterans or students who themselves are handicapped, in the hope of improved instructor-pupil communications, assistance for the handicapped instructors, and the healthier emotional development of the pupils."

"Response from various state departments of special education has been largely enthusiastic," Rep. Price said. "The problem is recognized. I believe it is time to make a definite commitment to these children and help them to fulfill their potential."

SCHERMER BULLETIN:
Well, this is the second big week of our Birthday Sale. 68 years on the corner of 12th and Madison is a long time. We sure have a lot of interest in the 1972 Dart Swinger which we are giving away. We are registering everyone by name and address for the car so once we draw, there will be no question who the winner is. Everyone who comes in gets one registration and we give extra registrations with each \$7.50 that you purchase, so by Nov. 6, some of you are going to have a lot of tickets in the barrel.
Our new shopping carts came in last Thursday. Would you believe that we ordered these carts late in July? We thought they had lost the order, but sure enough they finally came in and they are nice.
We are probably going to run out of salad bowls this week. But while they last, we have them. We have plenty of the big salad mixing bowls which match those we are giving away and we are offering them for 79¢ including the big spoon and tongs.
Another unusual request came in last week. Coconut flavoring. We didn't stock it but I think we located some. Schermers will go to no length to keep a customer happy. Chef's Best is now on TV. If you see any of the Chef commercials let us know. There are now 33 Chef stores in the St. Louis Area and Schermers are proud to be the only one in the Quad City Area. Those of you who buy our Chef products know that they are the best possible quality and that they save you lots of money. Like today's ad, Chef's Best Bread only the per loaf.

Mrs. Mary Parchment, organist, accompanied Dennis Myracle, soloist, as he sang "The Wedding Prayer."

Lieutenant Governor Asks-Is School Formula Constitutional?

By LT. GOV. PAUL SIMON

I have long regarded Illinois' formula for school aid as one which cheats many of the chance for a good education—and an unnecessarily heavy burden on those who own property.

Last month, the California Supreme Court voted 6-1 to outlaw that state's financing of schools by local property taxes. About 56% of the school funds in California come from real estate and personal property taxes. In Illinois, the amount is even higher, nearly 59%.

If that opinion is upheld, it will drastically change school financing all over the nation, including Illinois.

The court's 6-1 decision concluded that "this funding scheme invidiously discriminates against the poor because it makes the quality of a child's education a function of the wealth of his parents and neighbors."

The California court said, "Affluent districts can pay their share and eat it too; they can provide a high quality education for their children while paying lower taxes. Poor districts, by contrast, have no cake at all."

The equal rights to quality education must be protected, the court said, because "education is a major determinant of an individual's chance for economic and social success in our competitive society; second, education is a unique influence on a child's development as a citizen and his participation in political and community life."

Illinois has the reverse kind of disparity the court found in California.

Could Horatio Alger Have Advanced From This State's Welfare Rolls?

By JOAN MURARO

Copley News Service

SPRINGFIELD—Horatio Alger's boys are dead, and their like will probably never be seen in American life again, says State Public Aid Director Edward T. Weaver.

In the place of the Shoeless Joe and his poor but proud brothers who rose from poverty to prestige through pluck and perseverance, there stand roughly 800,000 persons in Illinois alone mired in poverty from which neither their own efforts nor those of outside agencies, such as Weaver's department of public welfare, appear to be able to budge them.

Grants and other costs for their support in the current year will leave at least a \$31 million deficit, after eating up a public aid budget initially set at \$1.3 billion but since cut by \$65 million by Gov. Richard Ogilvie.

Getting them off the aid rolls and onto payrolls, Weaver feels, is hampered by everything from a floundering national economy through a school system which has failed them, to a human tendency not to want to take a job considered "demeaning."

But unless they are gotten off the rolls soon, their sheer increasing bulk can rip the fabric of present American life, and drastically change the very nature of the American free enterprise system, Weaver fears.

He stops short of speaking of violence and radical change, noting that "I'm not much of a historian. But history seems to indicate that in other places, such as czarist Russia, when the numbers of poor and disgruntled increased enough, leadership arose and the whole system of government was changed."

And leadership, like the poor, he feels we have always with us.

"There are always people, not necessarily from the ranks of the poor themselves, wanting to set themselves up as leaders of the poor, for their own purposes."

The "how" of getting recipients off the aid rolls is the big question, for which there doesn't seem to be even a small successful answer.

"If the economy should turn around soon," Weaver says, "that might help. But that's a big 'if.'"

Having only been in the director's post a few days, Weaver is reluctant to make sweeping policy statements.

But he says plans now call, internally, for "reorganizing existing units for more sensible and efficient office procedures, and, externally, for improving the department's working relationship with state government and particularly the private sector of the economy to provide more jobs and more job training."

However, Weaver sees employment only as one solution, but not a miraculous cure-all.

"We must face the fact," he says, "that there simply are large numbers of people in our society who are dependent, and in no sense of the term employable."

He challenges popular belief that most welfare recipients are on aid rolls because they would rather loaf than work, and says he feels charges of fraud by recipients are exaggerated.

"It has been suggested that fraud might be as much as one or two percent of the total," he says, "which is infinitesimal compared with the reports of theft and pilferage in the private business and industry."

Charging that "we get the dropouts from everybody else's failing education, industry, all of them," he accuses education in particular of having been "very retarded" in efforts to improve the quality of education in America today.

"We keep the idea, it was good enough for Granddad, it's good enough for us," he says, "and we have not really tried to make education exciting, to make learning fun, particularly for students in the lower economic areas."

Governor to Decide Whether to Release Funds to Open School of Dental Medicine

Governor Ogilvie reportedly will decide this week whether to release \$1,200,000 to enable the SIU-SW Dental School to open during 1972. It is encouraging that the important decision will be made at the highest level.

The School of Dental Medicine is vital because of the great need for dentists in Southwestern Illinois. Another noteworthy point is that it is the first professional school to be scheduled for the local university.

SIU-SW is a "natural" for such instruction because of its location within one of the nation's principal metropolitan areas.

It even as crucial a doctoral program as that of dental schools in the Midwest. It is a temporary budget dilemma stemming from questionable priorities, the idea of multiple professional schools at this strategic location would receive a setback.

We hope the governor's finding is favorable and we are glad that he is to decide rather than the Illinois Bureau of the Budget, which has withheld the already fully-authorized funds for still another evaluation and re-evaluation.

The numerous governing layers separating Southern Illinois University from Illinois General Assembly allocations—including the Higher Education Board and Budget Bureau—have been a matter of concern for some time. Now, it seems that even projects which hurdle all those barriers and are signed by the governor are being subjected to second "state by fire" in which they have to gain repeat approvals.

It is not at all certain that these procedures are "according to Hoyle" and we would like to see the governor say such run-arounds are not according to Ogilvie, either. He can do so by releasing the Dental School funds.

The agreement reached Friday, under which Japan, South Korea, Taiwan and Hong Kong will restrain the flow of textiles to the U.S., sets a pattern which may be emulated in the steel industry. America has lifted its 10% surcharge on non-cotton textile imports and perhaps will do the same in other fields when foreign nations give up seeking a crippling large share of the U.S. market.

America is willing to meet foreign competition on a more or less even terms but is painfully aware that in some cases it has encountered a "stacked deck" in which its exports are thwarted by bewilderingly complex and fast-changing rules.

Now, the five-year pacts are being hailed as a major economic victory for the U.S.; Treasury Secretary John B. Connally further hints there will be selective lifting of the 10% tariff.

turn around soon," Weaver says, "that might help. But that's a big 'if.'"

import surcharge for countries meeting America's requests for upward revaluation of their currencies and removal of trade barriers.

Foreign goods will continue to be available here and U. S. goods will find wider acceptance overseas as a result of these developments, restoring a reasonable trade balance and curbing the "balance of payments" imbalance.

Proposed Center Would Aid Tourism, Music Festival, Cultural Programs, Conventions

Conferences taking place between legislators from Madison and St. Clair Counties, Peoria, Springfield and Rockford are a constructive step. Each area is seeking a performing arts center-exposition hall-convention center patterned after—but smaller than—McCormick Place in Chicago.

State financing similar to that used for McCormick Place is proposed and seems feasible, serving in order, after the No. 1 center of population, the No. 2, 3, 4 and 5 largest areas.

The attempt to develop detailed legislation acceptable to both political parties is well worth the time that is being devoted to the task. It would be hard to find a project with such varied benefits—improved summer music arrangements, a big boost to tourism, an increased assortment of cultural activities and accelerated scheduling of statewide, regional and national meetings and exhibits.

As Coach Allen Says, 'The Future Is Now'

We were rooting as hard as we could for the St. Louis Cardinals to defeat the Redskins at Washington yesterday. A victory would have put the Big Red only a game behind in the National Conference Eastern Division, with their 20-0 win, the Redskins instead gained a three-game advantage over St. Louis and a two-game lead over Dallas after only five weeks of league play.

Although we are not for the Washington team, we admire it and particularly the philosophy of its coach, George Allen, who was the Los Angeles Rams coach until this year. Taking charge of a squad which had been a perennial also-ran, he announced that "the future is now. It has and it has become just that, Washington is professional football's only unbeaten-untied team."

Allen's attitude is simple but sound. "I want to win, not 'build for the future," the coach explains.

One wonders if the motto might also be appropriate for a community like the Quad-Cities, which has had excellent potential for a number of years but has not had a championship record lately in attaining economic goals and the standards desired for certain services and facilities.

Maybe the coming months can change the potential into reality, the building into actuality, the future into now. It might well happen, through concerted action—as if Quad-Cities adopt a bit of the thinking of Coach Allen.

New Occupational Hazard for Candidates

We are sorry to see it happen, but it was probably inevitable.

Lawton Chiles won a United States Senate seat in 1970 by walking all over the state of Florida.

Dan Walker is walking from the southern border of Illinois to its northern border in the hope that he will win the 1972 Democratic nomination for governor.

But Joseph P. Teasdale, a candidate for the Missouri Democratic gubernatorial nod, has called a three-to-five-week delay in his walking campaign. The Kansas City attorney, Jackson County prosecutor, suffered a "marcher's fracture" and was fitted for a cast at a Columbia, Mo., hospital.

NEW POLICE STATION COULD AID EFFICIENCY

To the Editor:

Serious attention should be given by the people of Granite City to the condition of our police department.

Squeezed into its small, ill-equipped space in the basement of City Hall, it lacks room for proper fire systems and room for proper interrogation and detention and is, in general, in a very depressed condition.

This is not the fault of the department itself, or of its administrators, but of the people and government officials of Granite City for allowing this to happen.

Granite City is growing at a fast rate. A modern, well-equipped police department is a must.

A new police department should be built next to and in conjunction with the main fire station. There is city-owned space around the fire hall for which is needed.

If it is built there, the police and fire departments could work together more closely to give our city greater protection.

The national government would pay for about three-fourths of the cost of a new building, leaving us, the people who use it, to pay only one-fourth the cost.

Good, efficient police protection is one of the few things that we can put a price on, for it is truly priceless—as anyone who has ever needed a policeman can tell you.

Berlin Has Its Wall, Cuba Also Sealing Off the Door to Freedom

By THEODORE A. EDIGER

Copley News Service

Cuba is becoming a walled island, and, if Premier Fidel Castro has his way, it will become nearly as hard for anti-Communist Cubans to leave their country as for East Germans to hurdle the Berlin Wall.

The last major exodus route, the twice-daily "freedom flight" from Miami to Cuba, is being phased out at Castro's order.

Castro's announcement that he would let 1,000 more Cubans out and then halt the refugee airlift caught the U. S. government and Cuban exiles abroad by surprise.

By the State Department pointed out that there were 33,000 persons on a priority list dating back to 1965 that had already been approved by both countries and asked that the list be honored.

Castro's reason for the decision is unclear. Cuba has been hard-pressed for workers and professional people, who have been among those leaving.

About a quarter-million Cubans have come to the United States by the air shuttle established Dec. 1, 1965. The Cuban exile population in the United States now exceeds one-half million.

Castro patrols have almost sealed Death Gullies, as refugees call the hazardous sea "wall" between Cuba and the United States.

The Cuban Refugee Center, which has registered 11,144 who "hurdled" it in boats, rafts, anything that would float.

But it has no record of untold thousands failing to make the passage. Shoreside guards, thrust take their toll across the often hazardous Florida Strait.

Castro defector recently testified before the Senate Internal Security subcommittee that only about 5 percent of those he set out to manage even to elude Castro patrols.

Francisco Teira, a former Cuban intelligence officer, also said "Many times they are bitten by dogs, and oftentimes shot to death before they even get to the beach."

Since 1962, when an average of 190 refugees a month reached Miami by boat, this traffic has diminished steadily. In July, only two craft with a total of 21 persons aboard made it.

The Berlin Wall went up in 1961, about the same time the "Castro wall" restricting travel from Cuba. By comparison, unofficial estimates place the number of East Germans who have escaped at 5,000, and the number who died trying at 150.

In 1970, the Castro regime stopped taking applications for Cubans to leave on airline flights to Mexico and Spain, and the number who died trying at 150.

There are reports Castro plans to open the north side of his "wall" to permit exiles visitation rights to Cuba, much as East Germany opened the Berlin Wall to the west.

Gate Council Endorses Water Quality Program

Endorsement has been given by the East-West Gateway Coordinating Council to an application by the Southwest Illinois Metropolitan Area Planning Commission requesting Federal assistance to prepare a fully developed Water Quality Management Plan for Madison, St. Clair and Monroe Counties in Illinois.

The Southwest Illinois Metropolitan Area Planning Commission is requesting a \$605,000 Federal matching grant of \$172,025 from the Federal Environmental Protection Agency (EPA).

The objectives of this program are to: consider and assess all existing and future pollution problems and quantities, develop various methods and strategies for pollution control, develop alternate plans for abate-

ment, develop an appropriate plan based on alternatives, prepare a program schedule, and determine methods of implementation.

The Board noted that as of July, 1973, FEPA will require a water quality management plan before eligible projects can be funded. Between now and July of 1973, FEPA is also requiring that interim plans be prepared.

The Board further noted that these plans are similar to watershed planning in that both attempt to evaluate larger areas and prevent situations where one jurisdiction's solution becomes the problem of an adjacent jurisdiction.

Education Group Sets National Meeting Here

The Association for General and Liberal Studies will hold its 1973 national meeting at Southern Illinois University-Southwestern Oct. 21-23.

Principal speakers at the conference will be Dr. Edward J. Shoben, executive vice president of Evergreen State College in Olympia, Wash.; Dr. Barry Commoner, director of the Center for the Study of Natural Systems at Washington University in St. Louis; Dr. Calvin Burnett, president of Coplin State College, Baltimore, Md., who is a former member of the SIU-SW faculty; and Dr. Joseph P. Cosand, professor of education at the University of Michigan and former president of the St. Louis Junior College District.

The association was founded in 1961. It represents no specific academic discipline, but encourages general education as the foundation for liberally educated men and women. Membership is open to all who are professionally engaged in higher education and to graduate students planning careers as college teachers. More than 200 colleges and universities are represented in the association and 350 individuals are expected to attend the meeting.

Dr. John S. Rendleman, president of SIU-SW, will welcome the group at a banquet scheduled for 6:30 p.m. on Oct. 21 in the University Center ballroom.

Dr. Shoben will be the principal speaker at the banquet. His topic is "General Education: What Types Are Best for the Students."

Dr. Commoner will speak on "General Education and the Environment" at the morning session Oct. 22. Dr. Burnett will be

the luncheon speaker that day, talking on "Their Practical Needs, Their Theoretical Needs—and What They Get." The evening speaker will be Dr. Cosand. His subject is "General Education in the Two Year College—Is It Meeting the Needs of the Student and Society?"

Panel discussions are scheduled on the type and structure of general education, general education and specialization,

and general education and the disadvantaged student.

Moderators will be Dr. Andrew J. Kuchman, vice-president and provost of SIU-SW; Dr. Robert M. Limpus, dean of the School of General Studies at Western Michigan University; and Glenda Lawhorn, academic adviser in the General Studies Division at SIU-SW.

The host committee for the convention is headed by Dr. S. D. Lovell, dean of the SIU-SW General Studies Division.

Harris, Partee Could Be on Illinois Ballots

By KEN WATSON
Capitol News Service

Springfield—Two members of the Illinois State Senate are rated as good bets to be on their respective parties' 1972 slate.

They are Democrat Cecil A. Partee of Chicago, Senate president pro tem, and Republican William C. Harris of Pontiac, a former floor leader and chief administration spokesman on the ethics legislation issue.

There is abundant Statehouse speculation that Partee will wind up as the Democratic nomination for lieutenant governor, teaming with Lt. Gov. Paul Simon as governor for a Downstate-Chicago combination.

Growing national concern of a black candidate for vice-president has fueled the Illinois talk concerning a statewide post for Partee. There would be nothing smacking of black tokenism in a Partee candidacy. He is highly respected for his intellect as well as an acknowledged high degree of leadership during the regular 1971 legislative session.

Although the lieutenant governor post has become even less important than before under the new Illinois Constitution, election to it would mark a major breakthrough in racial-political matters in Illinois.

It would also be a big step toward a possible nomination of Partee for governor or U. S. senator in the not-too-distant future.

There have been some suggestions that he run for attorney general. But Chicago

Mayor Richard J. Daley and lesser party leaders would probably shy away from that. Republican Attorney General William J. Scott, who is expected to seek reelection, is regarded as exceptionally strong.

To run Partee against him might open the Democratic leadership to charges of tokenism if not a sellout.

Harris nomination is tied in with his association with the ethics legislation.

At a time when many lawmakers past and present have been involved in the Illinois race track story, Harris is not only free of such taint but is the chief sponsor of major administration ethics legislation.

Should Harris be on the 1972 ticket it would be his second at statewide office. He lost out to Democrat Michael J. Howlett in the 1968 auditor's race by a comparatively close 108,725 votes.

This is regarded at the Statehouse as a good showing since Howlett has long been recognized as one of the strongest individual vote-getters in Illinois politics.

If Harris is to be on the ticket next year, like Partee, might open the Democratic candidate for that spot and Harris understandably would be reluctant to take him against it.

But it is generally accepted now that Mike Howlett is going to be the Democratic candidate for that spot and Harris understandably would be reluctant to take him against it.

Harris and Partee share a number of common credits. Both are knowledgeable in state government, have had some experience in leadership and could be expected to do a capable job if late should ever determine that as lieutenant governor one or the other might have to take over the governorship.

State Provides Funds For Crossing Guards

Public Works Director William F. Cellini has announced approval of a local highway safety project to provide for the hiring of two adult crossing guards for the Granite City Community School District.

The guards will aid and direct children using the crosswalks around Maryville and Mitchell Schools, thereby providing further protection for the children en route to and from school.

Total cost of the three-year project will be approximately \$6,300. One-half of the costs will be reimbursed to Madison County upon completion of the project from Federal Highway funds available to the State of Illinois under provisions of the Highway Safety Act of 1968, Cellini said.

This local project is one of more than 675 county and municipal projects being conducted as part of the State Highway Safety Program. Under the direction of Governor Richard B. Ogilvie, a number of projects also are being carried out by other State agencies to promote greater safety through advanced technology and training.

UF Agencies Provide Aid to Afflicted

Many serious and distressing illnesses cannot be treated indefinitely in acute general hospitals.

Often people are faced with prolonged convalescence periods after the onslaught of a debilitating or crippling attack and have no one to help them. What then? What happens when a mother is incapacitated by illness and the children are too small to take care of themselves and certainly can't give their mother the care and assistance she requires.

Several United Fund-supported agencies are equipped — because of the generosity of those who contribute to the Fund — to provide help to the afflicted. One of these agencies is the Visiting Nurse Association, who care for the sick in their homes.

They help people like Mary L. who was released from the hospital after recovering from the initial effects of a stroke. She is the mother of three children.

Children Helpless
Shortly after returning home, Mary was struck down with a severe case of muscular spasms which left her doubled with pain, unable to move. Her children stood by helplessly.

When the visiting nurse found Mary she was propped up with pillows the family had placed around her to ease her condition. Mary had become so weak she could no longer move and the family was getting hysterical as Mary's spasms worsened.

It took four months, but under the care of the visiting physical therapist, and constant exercise, she was able to move about in a wheelchair. Now, Mary, who was crunched with pillows, is able to shop, cook, and care again for her husband and family.

"We can do so much for patients if given the chance," said Visiting Nurse director Arlene Crouther.

And they've been doing it. In the first eight months of 1971, 1989 nursing visits to 122

patients were made, along with 198 speech and physical therapy visits and 320 home health visits in the Tri-Cities area.

No one is denied service. Visits cost \$12, but if a patient is unable to pay, or if Medicare doesn't cover the visit, the United Fund allocation of \$6,000 to Visiting Nurses insures that health care is available. Care is administered under doctor's orders.

Services Exceed Funds
All United Fund money collected for Visiting Nurse Association in the Tri-Cities area is spent in this area, even though the office is at 1206 N. 89th St. East St. Louis. Thus far nurses have given more services than Fund allocations have covered.

Services of Visiting Nurse Association include nutrition advice by a licensed dietitian, instruction to the family on care for the sick (including the often overlooked details — like scatter rugs invite broken bones for old people.) Through trained home health aides, meals are prepared, houses kept, baths given, and rehabilitation therapy administered.

The goal of the visiting nurse is to get the people on their feet and help them to become self-reliant citizens.

Sometimes a complete change of environment is needed to help the patient overcome his affliction. Alcoholism, the third leading killer in this country, is such a disease.

Hospitals can sober up a person, but who helps the alcoholic avoid taking another drink? The Alcoholic Rehabilitation Community Home (ARCH) was set up three years ago to provide a bridge between the detoxification process and the alcoholic's return to society as a confident, productive member.

Must Have Desire
"We only require that anyone we take in has a sincere desire to stop drinking. If he has that, we can help him," said ARCH director Wilbur Arnold.

Himself an alcoholic, Mr. Arnold knows what it is like to start drinking. After 30 years

of drinking, one Sunday morning Wilbur reached for the whiskey bottle and knocked it over.

"I went to a friend and he offered me a cup of coffee and suggested a way out for me," recalls Mr. Arnold.

Wilbur spent 14 weeks "drying out" at Alton State Hospital. Two years later he took "just one drink" at a family reunion to see what would happen — and he returned to Alton State — this time for 6 weeks.

"I'm never going back there, and I want to help others stay out of there too. I'm not afraid of any man or anything except that whiskey bottle — I know what it can do to me. I think of nothing else except that next drink, and that next drink is nothing but false courage," said Wilbur.

Through his experiences, Mr. Arnold knows when an alcoholic is lying to him — they use the same excuses he used.

"One man told me he only had two beers after work. I found out from his wife about the jugs of wine he was drinking in the evening," said Mr. Arnold.

Have Waiting List

ARCH, located at 1909 Grand Ave., accommodates about 20 residents at a time, or about 40 men a year. This is a small portion of the estimated 20% of Tri-Cities residents who are alcoholics. ARCH also does extensive counseling. They have a waiting list for housing and plans for larger quarters.

Residents at ARCH do house-keeping chores, including baking, cakes and perking hot coffee.

Alcoholic's Anonymous and the ARCH board of directors also work to help with the rehabilitation of the alcoholic through job placement and counseling. Mr. Arnold has been successful in stopping or diminishing the alcoholism of more than 50% of his contacts.

Special needs for special problems also include special care for special children.

These are children who because of birth defects are deprived of a normal life. Approximately 97% of the retarded children incur brain damage a few minutes after birth.

Though school programs for special children are now established, most retarded children are excluded from the normal social activities of children that could make their lives so much happier, especially for those over age 16.

Recognizing this need, Special School teacher Mrs. Evelyn Smith started the Granite City Association for the Retarded chapter of the state and national A. R. S. Through their letter campaign the association recently moved Governor Ogilvie to sign a bill providing help for handicapped and retarded children.

Greatest Benefit

But the greatest benefit for the children is that they can now have Christmas, Easter and Halloween parties — a bowling league and field trips that for children take for granted. Through association activities these special children need no longer be social outcasts.

High retardation is still baffling doctors. It is not the only disease whose causes and cures are unknown. One of the most misdiagnosed and mistreated diseases is arthritis, affecting one out of every 16 persons in the United States.

"About \$300 million a year is spent by arthritis on copper bracelets, seawater, vibrators, and other quick devices because the people give up too quickly on medical treatments," according to Arthritis Foundation Director Mrs. Albert Eschrich.

The only thing that can possibly help an arthritis patient is proper medical care. Without treatment many patients would be confined to bed. We do have drugs to help arthritis victims — it just takes time to find the right combination — and many people are too impatient. The important thing is to get proper treatment as soon as possible.

"One woman from the Tri-Cities came to the Arthritis Clinic at St. Louis U. groaning along the wall in pain, her feet swollen. Her leg was opened from an overdose of hormones. Mrs. Eschrich put her in the clinic and through medication and physical therapy she recuperated. The woman is now a licensed practical nurse.

Doctors serving the arthritis clinic donate their time and all clinic services are free except who need them. The Arthritis

FIGHT AGAINST ALCOHOLISM is waged by ARCH occupants such as this man standing in doorway of the agency home at 1909 Grand Ave. ARCH is a United Fund agency and maintains a high percentage of rehabilitations. It is one of many UF agencies providing help to the afflicted.

Public Aid Dept. Takes New Look at Test Firm

By RAY SERATI
Copy News Service

SPRINGFIELD — Public Aid Department officials are still looking over the possible reconsideration of a controversial contract to test welfare applicants for employability, which recently was ordered discontinued by Gov. Richard B. Ogilvie.

The contract had provided for the testing of welfare applicants for employability. It was with the Educational Planning Associates, a private educational firm.

Heading the firm is Benjamin Willis, former Chicago superintendent of schools. He is listed as chairman of the board. John Kirby of Williams, a former administrative aide to Public School Superintendent Ray Page, is the president of the firm. Former U. S. Sen. Ralph T. Smith of Alton is the firm's legal counsel.

Last month the contract for

Foundation also offers to patients a referral service covering doctors who specialize in arthritis treatment.

Arthritis physical therapy treatments are now available at St. Elizabeth's Hospital in Granite City.

As hospitals continue to fill with patients who require immediate and intensive attention, the need for adequate non-hospital health care facilities will continue to grow. The Tri-Cities Area United Fund agencies are pledging themselves to meet this need, with your help.
